

Clovenhoof

“Lucifer meets Modern Family in a devilish suburban fish-out-of-water comedy”

Summary: Satan, Prince of Hell, has his job in a management reshuffle in the afterlife and forced to take retirement on earth. He is put into a house-share with a headstrong woman and a nerdy bookshop owner. Their lives will never be the same again.

<p>Clovenhoof AKA Satan (dream cast: Jason Isaacs) now lives on Earth under the name of Jeremy Clovenhoof. He has the legs, hoofs and horns of a goat, a devil’s tail and red skin and is personally insulted that no one seems to notice this (apart from his barman). Whether it is trying to find employment, express himself creatively or dip his toes in the dating scene, Clovenhoof throws himself recklessly into every situation and fails at almost everything he attempts.</p>		<p>Nerys Thomas (dream cast: Michaela Cole) is a headstrong young woman who knows life is too short to hang about. She has firm goals in life and devotes all her energy to achieving them. Number one amongst those goals is finding and ensnaring the perfect man. Nerys doesn’t put up with any nonsense from her new neighbour and in fact feels that it is her right – her duty – to get Clovenhoof to sort his act out: get a job, get a woman and put on some underpants.</p>	
<p>Ben Kitchen (dream cast: Daniel Radcliffe) wears the clothes his mum buys him for his birthday. He’s had the same haircut for twenty years. His house is full of tiny soldiers from the ancient world and he knows more about Roman warfare than any grown man should. His ambitions are so tiny as to be almost non-existent. Ben likes his new neighbour; it’s refreshing to meet another person who isn’t a slave to fashion...</p>		<p>Archangel Michael (dream cast: Neil Patrick Harris) has the looks of a Hollywood icon and the sartorial elegance of a supermodel. He glides through a world that is either perfect or needs to be perfect. He will intercede in every one of Clovenhoof’s misadventures, not only to impress his Heavenly superiors but also to prove that he is and always has been better than Lucifer...</p>	

There are currently nine books in the Clovenhoof series. Throughout his adventures, Clovenhoof rarely leaves the suburb to which he has been exiled but ends up having to deal with heavenly rebellions and rogue evangelist churches, sets up his own breakaway country and accidentally kickstarts Armageddon (more than once!).
